

CITY OF STOCKTON – PUBLIC WORKS DEPARTMENT
QUESTIONS AND ANSWERS

Project: Channel Street Improvements Project

1. Do the City have any existing topo mapping, collision reports, approach speed, ped/vehicle counts, truck volume info? Should the Consultant perform traffic counts?

Available information pertaining the project will be shared with the selected consultant. The consultant shall determine the necessity of a traffic count.

2. Attachment A shows Greenscaping along both sides of the Rail Commission Project portion but the greenscaping not always along both sides of the City portion. Do the City prefer not to improve sidewalk and planting on the segments not being highlighted on the attachment?

Segments not highlighted on Attachment A are not part of this project.

3. How much design work on the Rail Commission portion have been done?

The Rail Commission is currently at 95% PS&E.
