CITY OF STOCKTON  
REQUEST FOR PROPOSALS (RFP)

**2.0 BACKGROUND/GENERAL NATURE OF SERVICE**

The purpose of this RFP is to find and select a qualified consultant to develop an integrated document and master infrastructure plans for municipal transportation and city service facilities, recommendations for innovative and cost-effective upgrades and improvements recommended for present and future needs, and to conduct a comprehensive Development Impact Fee Study and Stormwater Connection Fee Study for the City of Stockton.

The qualified consultant will develop master infrastructure plans for transportation (streets, traffic signals, bridges, etc.) and city service facilities (libraries, fire stations, city offices, police stations, libraries, recreation centers, parkland). Development of master utility plans (water, sewer, and stormwater) will be completed through a separate scope and consultant contract managed by the Municipal Utilities Department. The consultant selected to complete this scope of work will collaborate with said consultant and have access to the final master utility infrastructure plans, for the purpose of preparing mitigation fees including a Stormwater Connection Fee Study.

In accordance with the Mitigation Fee Act (California Government Code Section 66000 et seq.) also known as Assembly Bill (AB) 1600, the City currently assesses a variety of development impact fees on new development to help pay for infrastructure improvements that accommodate new development activity. The City desires to update its impact fee program to ensure compliance with state law. The City is now seeking the services from a qualified firm to:

- Update the impact fees to reflect the City's recently updated 2040 General Plan.
- Review the current development impact fees as well as all types of current or planned infrastructure and service facilities to identify potential new or revised mitigation fees to accommodate city development in conformance with the 2040 General Plan goals and policies, as well as other applicable regional and local transportation, facility or Capital Improvement Plans.
- Conduct a detailed review to develop and propose a new Stormwater Connection Fee and develop a recommended rate structure that provides sufficient revenue to fund Stormwater costs. The Master Infrastructure Plans for the Sewer, Water, and Stormwater, as mentioned above, will be developed through a separate contract, managed by the Municipal Utilities Department, and may not be awarded to the same consultant as indicated in this scope of work. The Consultant awarded for this scope will work in collaboration with the Master Infrastructure Stormwater Plans consultant and be given access

CITY OF STOCKTON  
REQUEST FOR PROPOSALS (RFP)

to the final Master Infrastructure Stormwater Plan for the purposes of  
developing a new Stormwater Connection Fee

General Information about the City's Development Impact Fees

The City originally adopted Development Impact Fees (also known as the Public Facility Fees) in 1988. The City also adopted a comprehensive general plan update in 1990. The fees adopted at that time remained in place at 1988 levels until 2003. In 2003, the City increased each fee by 35% to reflect an inflation increase from 1988 to 2003, based on the Engineering News Record building cost index. Although there have been updates to sections of the program, a comprehensive fee nexus study has not been undertaken and approved since 1988. On December 4, 2018, the Envision Stockton 2040 General Plan was adopted. The City is now proposing to comprehensively update its Development Impact Fees after establishing new General Plan goals and policies consistent with levels of services applicable for new growth and infill areas.

Current City development impact fees collected include:

- City Office Space
- Police Station Expansion
- Fire Stations
- Libraries
- Community Recreation Center
- Park Land
- Street Improvements
- Traffic Signals
- Streetlights
- Street Trees
- Administration

**2.1 SCOPE OF SERVICES**

The Scope of Services includes the development of master infrastructure plans for transportation (streets, traffic signals, bridges, etc.) and city service facilities (libraries, fire stations, city offices, police stations, library, recreation centers, parkland); all necessary analyses and documentation to develop and support a comprehensive Public Facilities Fee Nexus Study update; and Stormwater Connection Fee study. Consultant's Public Facilities Fee Nexus Study must show that a valid method was used for imposing the fees, a reasonable relationship between the fees charged and the burden posed by the development project on which the fees are imposed (nexus), and otherwise meet the requirements of the Mitigation Fee Act.

The Public Facilities Fee study shall include, at a minimum, the following tasks:

CITY OF STOCKTON  
REQUEST FOR PROPOSALS (RFP)

**Task 1: Preliminary Work**

Consultant shall schedule a kickoff meeting with the City to review project requirements and previous development impact fee studies, discuss issues with City staff, present rationale for recommended changes, finalize the project approach, and confirm the project schedule. Additional follow-up meetings may be required in order to resolve questions and finalize Task 1 objectives.

**Task 2: Data Collection and Analysis**

Consultant shall review existing public facilities in areas subject to this study and work with City staff to project new or expanded public facilities needed as a result of future development. Consultant shall assist staff in the review, assessment, and development of cost estimates for new and expanded capital facilities and make recommendations as appropriate.

**Task 3: Determine Land Uses/Growth Forecasts/Market Study/Infrastructure Plans**

To ensure appropriate cost allocation, the Consultant shall develop accurate land use data and growth forecasts consistent with goals of the City's 2040 General Plan and detailed Master Infrastructure, transportation, service facility, or Capital Improvement Plans (CIP). The Consultant shall refine City population and employment forecasts to calculate new development to which improvement costs will be attributable. The growth forecasts shall be converted into land use types (referencing those used by existing fee programs) to aid the administration of the fees. A citywide real estate market study is to be developed with these forecasts to help identify areas of focus regarding infrastructure investment. The City's adopted Economic Development Strategic Plan will also be instrumental as a resource to identify those infrastructure investments. It is preferred that a local/regional forecasting agency or organization is used to confirm forecasting determinations.

Subsequently, detailed Master Infrastructure Plans will be developed at the Consultant's recommendations (excluding Water, Sewer and Stormwater) and pursuant to the requirements outlined in this RFP to assist staff toward targeted areas for reinvestment. The Master Infrastructure Plans for the Sewer, Water, and Stormwater will be developed through a separate contract, managed by the Municipal Utilities Department, and may not be awarded to the same consultant as indicated in this scope of work. The consultant awarded the contract for this scope of work will work in collaboration with the consultant chosen to conduct the Stormwater Master Infrastructure Plans. The consultant awarded for this scope of work will have access to the Master Infrastructure Master Plans for Water, Sewer, and Stormwater to assist in developing fee structure methodology. These detailed Master Infrastructure Plans will assist in removing uncertainties in the development process to meet general plan goals with a streamlined response toward the real estate market. As an example, targeted infill areas will have different infrastructure needs. Certain geographic areas may have existing capacities in street improvements but have limited capacities in sanitary sewer and/or drainage capacities. Other geographic areas may have water and sewer capacities but have

CITY OF STOCKTON  
REQUEST FOR PROPOSALS (RFP)

limited street improvements. These needs must be identified for targeted geographic areas for reinvestment, either based on general plan goals or economic development goals. A strategic approach should be utilized to determine a phased approach wherever necessary.

**Task 4: Cost Allocation**

**Task 4.1 Determine Costs Attributable to Future Development**

Consultant shall develop a methodology to identify current facilities' existing deficiencies to meet the needs of proposed projects and improvements and assist City staff to determine the portion of estimated costs attributable to new development versus the portion attributable to existing deficiencies.

**Task 4.2 Evaluate Current Allocation Factors and Recommend Alternate Methods.** The Consultant shall review and evaluate the costs and allocation factors used for existing fee programs and provide recommended alternatives.

**Task 5: Develop Nexus and Calculate Impact Fees**

**Task 5.1 Calculate Fees**

The Consultant shall develop models to create the nexus between unfunded improvement costs and projected future development based upon the allocation factors identified in Task 4.2. The models shall be designed to easily allow City staff or policymakers to refine the included facilities or allocation factors at any point during the public outreach and approval process. In addition, the models should consider existing deficiencies and any existing funding sources.

**Task 5.2 Calculate Both Land and Facilities Fees**

The City recognizes there are two distinct components to a public facility project: the capital construction component and the land acquisition component. The Consultant shall develop models designed to allocate costs to each of these categories and determine if separate recommendations for the annual adjustments to the separate land and facilities components of the fees are necessary and provide those recommendations. The City also recognizes that different types of facilities may require different adjustment factors. The Consultant shall explain why the same or different adjustment(s) are, in their opinion, a better option for the City. Additionally, fee calculations shall include an administrative component that addresses staff time to manage the program.

**Task 6: Preparation and Comparative Fee Study**

Prepare and provide a report that documents fee study results, including but not limited to, a description of the overall methodology, findings, supporting justification, recommended development impact fee(s) and the calculations that provide the nexus between development impact fee recommendations and new development. The proposed development impact fee analysis shall consider existing fees and compare to surrounding and comparable cities (comparison cities to be provided by the City). The comparative fee study should also include an

CITY OF STOCKTON  
REQUEST FOR PROPOSALS (RFP)

analysis and/or discussion of incentives used by the comparative cities to entice development in infill and/or disadvantaged designated areas of the city. The proposed fee structure should include options for an automatic inflation mechanism and recommendations.

**Task 7: Public Outreach**

The Stockton City Council has expressed a goal of performing extensive community outreach to residents and customers for new programs, services, events, etc. As such, the Nexus Study Update project will include substantial outreach to stakeholders. Proposal should include what tasks will be the consultant's responsibilities, such as: reserving locations, providing meeting minutes, advertising of meetings, providing a variety of meeting formats, etc.

**Meetings and Presentations**

The Consultant shall attend, gather input and/or present findings at the following meetings (at a minimum):

- One kick-off meeting with City staff
- 10-15 Project status meetings with City staff (as needed)
- Six Public outreach meetings
- 10 meetings amongst Planning Commission (if applicable), and City Council

Unless otherwise determined by the City, the Consultant shall plan on meetings being held at City of Stockton City Hall, Permit Center, and/or virtually.

**Tentative Work Schedule**

The Consultant is expected to submit a detailed schedule for the proposed work plan. The City's proposed milestones are included below, Consultants shall respond with any expected deviations from this schedule:

- Award of Contract
- Kickoff Meeting with City Staff
- Commence review of work completed by City Staff including CIP and other preliminary work
- Review and, if necessary, revise cost allocation factors
- Develop model(s) and infrastructure master plans, calculate fees
- Provide initial calculations of fees and draft Nexus
- Public outreach meeting with the City's Industry Working Groups to discuss draft Nexus

- Public outreach meeting with the City's Industry Working Groups discuss final Nexus
- Presentation of final study to City Council
- Fee Rates Effective (at least 60 days after adoption by Council)

CITY OF STOCKTON  
REQUEST FOR PROPOSALS (RFP)

A hard copy, along with an editable electronic copy of the final report shall be submitted and shall include the following:

- An Executive Summary.
- Analysis of existing development impact fees with recommendations for updating fees.
- Discussion of “pros and cons” of updating development impact fees, discussing the relationship between the fees’ use and the type of project on which the fees would be imposed.

- Comparison of proposed fees with neighboring similar jurisdictions
- Proposed method of ongoing administration of the program, including adjusting fees over time, periodic reviews of program, program implementation, and administrative fee component.
- Consultant shall ensure the study meets all the requirements of the California Environmental Quality Act (CEQA) and will prepare and/or file any necessary documentation required as a result of the study.

**Task 9: Implementation**

Provide recommendations to update the Public Facility Fees Administrative Guidelines and provide a new document to replace the current document. Suggestions should follow best practices and industry standards. This review and set of recommendations should include a template for a reimbursement agreement and recommendations for processing and implementing procedures.

A. Required Services:

## **1.1 Equal Employment Opportunity**

During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

- (2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.
- (3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.
- (4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- (5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- (6) The contractor will furnish all information and reports required by Executive Order

11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor

debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.
