

EXHIBIT 1: Police Department and City Vehicle Up-Fitting, Project No. OM-23-022

Parts for Police Vehicle Upfitting:

Exceptions - It is the intention of the City to maintain a cohesive fleet with like components across all vehicles. Therefore, it is requested that exception to the specified parts list provided only be used when necessary and with the approval of the City. Police Vehicle operators become accustomed to the controls, displays, and “feel” of a unit. Standardizing fleet segments allows our agency greater flexibility in making driver assignments without loss of productivity or the increased safety risk of drivers switching between dissimilar units. Police vehicle builds must be equivalent to the following:
