

QUESTIONS - ANSWERS - CLARIFICATIONS

**CITY OF STOCKTON
REQUEST FOR PROPOSALS (RFP) –
GRUPE PARK PARKING LOT RESURFACING
CITY PROJECT NO.: WD22011
DEADLINES FOR QUESTIONS: June 17, 2022**

1. Can we include a few 11” x 17” pages for items such as the Project Work Matrix, Project Schedule, etc? If yes, will it count as one or two pages? (They would be single-sided pages)

Answer: Yes, the Project Work Matrix and the Project Schedule may be on a 11”x17” page. It will count as one double-sided page.

2. Are references under section 6.4 the same as project write ups? We assume yes since references are also required under section 6.7.

Answer: Yes, for section 6.4 include project descriptions of prior experience along with project team qualifications.

3. Should the project work matrix include “the overall proposal cost” as stated in the RFP? (pg. 11)

Answer: No, the project work matrix should not include the overall proposal cost.

4. The proposal content is asking for a project work matrix with hours, hourly rate, and a total cost, as well as a separate sealed envelope with the cost proposal for the physical submittal. As well the electronic submittal is not to include the cost proposal. So we wanted to confirm how your team would like the cost proposal: in the body of the submittal, as a separate piece in a sealed envelope, but not in the electronic version submitted via email.

Answer: The project work matrix should not include the overall proposal cost. The cost proposal should be submitted in a sealed envelope and not included in the electronic version submitted via email.
