1-4-14 no flood aggression, very timid getting out of kennel needs work on leash, ok with mouth, flees, tail and ears, introduced to another adult female dog and was ok

Might be good idea to separate from her sibling to see how they do without one another. They are very bonded and howl, scream when one leaves the kennel without the other dog.

**ANIMAL NAME:** SUNSHINE

**SEX:** FEMALE

**BREED:** POODLE TOY

**D.O.B.:** 7/10/2008

**COLOR:** WHITE

**MEMO:**

Report of dog in need of medical Groomers ( ) at Carters pet store were paid to groom "sunshine" the white poodle the dog was yellow with urine over most of it. They started grooming the dog and immediately realized it was injured and (skin and bones), June stated the dog cried when she was shaving around the hip she could see after that the hip was dislocated or broken and the dog was continually dripping urine. They asked the Owner why the dog was this way and they admitted the dog had been hit by a car 4 days ago and they could not afford to get it looked at by a vet. They had also been keeping it in a crate at night so it did not pee all over the house.
