

Miner Avenue Complete Streets Project

You Are Invited to a Public Information Meeting

Wednesday, June 8, 2016

6:00 p.m. – 7:30 p.m.

Stockton Memorial Civic Auditorium, North Hall
525 North Center Street, Stockton

Project Description and Purpose

The proposed Miner Avenue Complete Streets Project, in general, is a 10-block rehabilitation of Miner Avenue from Center Street to the UPRR underpass. Improvements include:

- Reducing lanes from four to two lanes and adding dedicated bicycle lanes,
- Adding median islands and a roundabout at the western end of the project corridor,
- Modifying traffic signals at the intersections with traffic signals and streetlights,
- Widening sidewalks with pedestrian and seating areas, and
- Beautification.

The project will build on and refine the Miner Avenue Streetscape Plan which was adopted in 2011 to do the following:

- Prepare a precise road plan, and
- Prepare the environmental documents that must be completed and approved before construction.

Funding

This precise roadway plan portion of the project is funded by Congestion Mitigation and Air Quality (CMAQ) Program via the Active Transportation Plan (ATP) Grant.

What Will Be Available at the Public Information Meeting on June 8?

Maps, information about the project, and other displays will be available. You will also receive a brochure that provides tips and guidelines for drivers, bicyclists, pedestrians, and oversized vehicles in roundabouts. Representatives from Stockton Public Works, along with the design team, will be available to discuss your individual concerns and answer questions. You are welcome to attend any time between the hours of 6:00 p.m. – 7:30 p.m.
