OWNER-BUILDER DECLARATION

"I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 709.5 Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 commencing with Section 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 709.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500):"

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044). Business and Professions Code: The Contractor's License Law does not apply to any owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. It, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to any owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

I am exempt under Sec. ____________ , B & PC, for this reason __________________________ __________ . 

Date ________________ Owner __________________________

NOTE: To protest the imposition of any development fee, dedication, reservation or other excise imposed on your project, you must file written notice with the City Clerk's office within 30 days after approval of the project or imposition of the fees, dedications, reservations or other excisions. A protest filed on or before date ___________________ , 2012.

WORKER'S COMPENSATION DECLARATION

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec.7031.5 Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 commencing with Section 7000) of Division 3 of the Business and Professions Code or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500)).

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7041, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereof, and who does such work himself or through his own employees provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to any owner of property who builds or improves thereof, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

I am exempt under Sec. ___________ , B & P.C. for this reason

Date ____________________________ Owner __________________________

NOTE: To protest the imposition of any development fee, dedication, reservation or other exaction imposed on your project, you must file the notice with the City Clerk's office within 30 days after approval of the project or imposition of the fees, dedications, reservations or other exactions stating that the required payment is tendered or will be tendered when due, or that any conditions which have been imposed are provided for or satisfied, under protest, along with a statement of the actual elements of the dispute and the legal theory forming the basis for the protest.

Owner-Builders Declaration

I hereby affirm that I am exempt from the Contractor’s License Law for the following reason (Sec. 7031.5 Business and Professional Code: Any city or county which requires a permit to construct, alter, improve, demolish or repair any structure prior to its issuance, also requires the applicant for such permit to file a signed statement that he is not an exempt person pursuant to the provisions of the Contractor’s License Law (Chapter 9, commencing with Section 7000) of Division 3 of the Business and Professional Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).

☑ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044). Business and Professional Code: The Contractor’s License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

☑ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professional Code: The Contractor’s License Law does not apply to any owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor’s License Law).

☑ I am exempt under Sec. , B & R.C. for this reason

12.12.2.2.3 Protection with ESFR sprinklers shall be in accordance with the requirements of Table 12.12.2.2.3.

12.12.2.2.4 Protection with spray sprinklers shall be in accordance with one of the scenarios in 12.12.2.2.4.1 through 12.12.2.2.4.3.

12.12.2.2.4.1 Where plastic pallets are stored in cutoff rooms, the following shall apply:

- (1) The cutoff rooms shall have at least one exterior wall.
- (2) The plastic pallet storage shall be separated from the remainder of the building by 3 hour-rated fire walls.
- (3) The storage shall be protected by sprinklers designed to deliver 0.6 gpm/ft² (24.5 mm/ min) for the entire room or by high-expansion foam and sprinklers designed to deliver 0.90 gpm/ft² (12.2 mm/min) for the entire room.
- (4) The storage shall be piled no higher than 12 ft (3.7 m).
- (5) Any steel columns shall be protected by 1-hour fireproofing or a sidewall sprinkler directed to one side of the column at the top or at the 15 ft (4.6 m) level, whichever is lower. Flow from these sprinklers shall be permitted to be omitted from the sprinkler system demand for hydraulic calculations.

12.12.2.2.4.2 Where plastic pallets are stored without cutoffs from other storage, the following shall apply:

- (1) Maximum storage height of 10 ft (3.05 m)
- (2) Maximum ceiling height of 30 ft (9.1 m)
- (3) Sprinkler density 0.6 gpm/ft² over 2000 ft² (24.4 mm/min over 186 m²)
- (4) Minimum sprinkler K-factor of 16.8 (240)

12.12.2.2.4.3 Plastic pallets shall have no impact on the required sprinkler protection when stored as follows:

- (1) Storage shall be piled no higher than 4 ft (1.2 m).
- (2) Sprinkler protection shall employ high temperature-rated sprinklers.
- (3) Each pallet pile of no more than two stacks shall be separated from other pallet piles by at least 8 ft (2.4 m) of clear space or 25 ft (7.6 m) of stored commodity.
- (4) Minimum ceiling design of OH2 shall be used.

12.12.2.3 Idle plastic pallets shall be stored only in racks where protected in accordance with the requirements of Table 12.12.2.2.3.

12.12.2.3.1 When specific test data and a product listing are available, the data shall take precedence in determining the required protection of idle plastic pallets stored in racks.

12.12.3 Idle Pallets Stored on Racks, on Shelves, and Above Doors.

12.12.3.1 Idle pallets shall not be stored on racks or shelves, except where permitted in 12.12.1.3, 12.12.2.3, and 12.12.3.2.

12.12.3.2 Idle pallets shall be permitted to be stored on the lowest level of storage only where no storage or shelves are located above the stored pallets and the applicable protection criteria referenced for on-floor storage in Section 12.12 are applied.

12.12.3.3 Where idle pallet storage is above a door, the idle pallet storage height and ceiling height shall be calculated from the base of storage above the door using the applicable protection criteria referenced in Section 12.12.

12.12.4 High-Expansion Foam — Reduction in Ceiling Density. A reduction in ceiling density to one-half that required for idle pallets shall be permitted without revising the design area, but the density shall be no less than 0.15 gpm/ft² (6.1 mm/min).

Chapter 13 Miscellaneous Storage

13.1 Miscellaneous Storage Up to 12 ft (3.7 m) in Height.

13.1.1 Hose Connections. Hose connections shall not be required for the protection of miscellaneous storage.

13.2 Design Basis.

13.2.1 Table 13.2.1 and Figure 13.2.1 shall apply to any of the following situations:

(1) Miscellaneous storage of Class I through Class IV commodities up to 12 ft (3.7 m) in height
(2) Miscellaneous storage of Group A plastics up to 12 ft (3.7 m) in height
(3) Miscellaneous storage of rubber tires up to 12 ft (3.7 m) in height
(4) Miscellaneous storage of rolled paper up to 12 ft (3.7 m) in height
(5) Storage of Class I through Class IV commodities up to 12 ft (3.7 m) in height as directed by 14.2.3.1 and 16.2.1.2.1
(6) Storage of Group A plastics up to 5 ft (1.5 m) in height as directed by 15.2.1 and 17.2.1.1
12.10 Room Design Method.

12.10.1* The water supply requirements for sprinklers only shall be based upon the room that creates the greatest demand.

12.10.2 To utilize the room design method, all rooms shall be enclosed with walls having a fire resistance rating equal to the water supply duration indicated in Chapters 13 through 20.

12.10.2.1 Minimum protection of openings shall include automatic- or self-closing doors with the appropriate fire protection rating for the enclosure.

12.10.3 Where the room design method is used, the density shall correspond to that required for the smallest area acceptable under the density/method area.

12.11* High-Expansion Foam Systems.

12.11.1 High-expansion foam systems that are installed in addition to automatic sprinklers shall be installed in accordance with NFPA 11.

12.11.2 High-expansion foam systems shall be automatic in operation.

12.11.3 High-expansion foam used to protect the idle pallet shall have a maximum fill time of 4 minutes.

12.11.4 Detectors for high-expansion foam systems shall be listed and shall be installed at no more than one-half the listed spacing.

12.11.5 The release system for the high expansion foam deluge system shall be designed to operate prior to the sprinklers installed in the area.

12.12* Protection of Idle Pallets.

12.12.1 Wood Pallets.

12.12.1.1* Wood pallets shall be permitted to be stored in the following arrangements:

(1) Stored outside

(2) Stored in a detached structure

(3) Stored indoors where arranged and protected in accordance with 12.12.1.2

12.12.1.2 Wood pallets, where stored indoors, shall be protected in accordance with one of the following:

(1) Control mode density/area sprinkler protection as specified in Table 12.12.1.2(a).

(2) CMSA sprinkler protection in accordance with Table 12.12.1.2(b).

(3) ESFR sprinkler protection in accordance with Table 12.12.1.2(c).

(4) Control mode density/area sprinkler protection in accordance with the OH2 curve of Figure 12.5.1 existing with a hose stream demand of at least 250 gpm (946 L/min) for a duration of at least 60 minutes when pallets are stored no higher than 6 ft (1.8 m) and each pile of no more than four stacks shall be separated from other pallet piles by at least 8 ft (2.4 m) of clear space or 25 ft (7.6 m) of commodity. The maximum clearance to ceiling of 20 ft (6.1 m) specified in 12.1.3.4 shall not apply to arrangement 12.12.1.2(d).

12.12.1.3 Idle wood pallets shall not be stored in racks unless they are protected in accordance with the appropriate requirements of Table 12.12.1.2(a) or Table 12.12.1.2(c). (See Section C.7.)
